Disaster Recovery Funding

Effective July 01, 2011, the CDHG Disaster Recovery Program has transferred to the Texas General Land Office (GLO) from the Texas Department of Housing and Community Affairs (TDHCA) and the Texas Department of Rural Affairs (TDRA). The program is still in its transition stages, so we are still awaiting guidance on when to begin the Phase II Method of Distribution (MOD) and Status on Round 3 Phase 1, Non-Housing Drainage Projects.

In 2008, the Lower Rio Grande Valley Development Council (LRGVDC) was given the responsibility of developing the Region's Method of Distribution (MOD) for Disaster Recovery Round One Funding ($35,000,000). For second allocation (Round Two), the maximum amount of funds that was to be allocated through this partial MOD (Phase 1 Partial MOD) was capped at 25 percent of the total Round 2 allocation not to exceed $185,315,915. The resulting amounts available for this MOD are shown below:

Housing Disaster Recovery Funding

The United States Department of Housing and Urban Development (HUD) and its Community Development Block Grant (CBDG) Program allocated $606,092,987.00 to LRGVDC for Round 2 Hurricane Dolly disaster recovery expenses related to housing. In 2010, LRGVDC submitted an application to the Texas Department of Housing and

http://www.lrgvdc.org/disaster-recovery.html

10/18/2011
Community Affairs (TDHCA), for $2,238,725.00 to administer Phase I of the Housing Program. TDHCA's review of LRGVDC's application concluded that Phase I funds would allow funding only for Needs Assessment, Phase II Method of Distribution (MOD) and administration, cutting the budget to $381,920.00.

LRGVDC is waiting for final approval from the State and HUD on the Analysis of Impediments (AI) and the Phase I MOD to proceed with addressing all needs of the region related to Hurricane Dolly.

Dear Mr. Jones;

I am submitting this letter in lieu of speaking at your October 18th Public Comment Meeting. It is my hope that it will be part of the public record and shared with the LRGVDC members.

The devastation left in the wake of Dolly has left our region with many critical needs. Three years after the disaster our communities are still suffering. I applaud the LRGVDC for the work done this far and hope your dedication and hard work yields the help that the Low Rio Grande Valley needs.

Perhaps the most pressing need that still remains is replacing the affordable rental units that were lost to Dolly. At least four public housing projects lost units. There were also several privately owned units that were lost to the affordable market due to damage from Dolly. In particular the private units along the bay have been rehabbed and returned as market rate units. This has caused an acute shortage of available units that are affordable to low income workers in the Port Isabel area. These are particularly hard units to replace because of the escalating land prices along the coast.

At the October 7th FHAST Form/Needs Assessment public meeting the LRGVDC’s consultant expressed regret that non-public rental units could not be assisted regardless of how dire a community need existed. However on further research and discussion with the General Land Office, CDCB was pleased to learn that the State’s Housing Guidelines do allow for replacement of affordable units that were not owned by a Public Housing Authority but, the need has to be demonstrated in the Needs Assessment. CDCB urges the COG to carefully assess the need for affordable rental units along the coast when completing the Needs Assessment. It is within the LRGVDC’s Authority to insure this need is met.
Secondly, CDCB would like to re-affirm it's commitment to the Rapid Housing Recovery Pilot Program. The Rapid Rehousing Pilot Program is a key element to insure that those affected by future hurricanes do not become or remain homeless when another disaster hits. This program will help the Lower Rio Grande Valley Prepare a response that reduces the time it takes to get our residents the help they need when another disaster hits.

The Rapid Rehousing Program Pilot Program needs to address the temporary housing, permanent housing, emotional and physical needs of our residents. But perhaps more importantly it needs to address the system which delivers these services. It has been three years since Dolly hit and there are still people in the Rio Grande Valley who have not received the assistance they need. This program can be a guide to better helping our residents through the system while making sure the delays do not occur again.

Sincerely,

Nick Mitchell-Bennett
