INDEPENDENT AUDITOR'S REPORT

To the Board of Director of the
Lower Rio Grande Valley Development Council

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lower Rio Grande Valley Development Council, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Lower Rio Grande Valley Development Council's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lower Rio Grande Valley Development Council, as of December 31, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3–9 and 30–31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

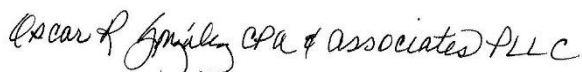

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lower Rio Grande Valley Development Council's basic financial statements. The schedules in the supplementary information section, pages 32 -154, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State of Texas Single Audit Circular, is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The schedules in the supplementary information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 12, 2019, on our consideration of the Lower Rio Grande Valley Development Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lower Rio Grande Valley Development Council's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS
LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
DECEMBER 31, 2018

The Lower Rio Grande Valley Development Council (LRGVDC) discussion and analysis offers readers of LRGVDC's financial statements a narrative overview and analysis of LRGVDC's financial activities for the year ended December 31, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished and the financial statements and notes to the financial statements, which immediately follow this discussion.

Financial Highlights

The assets of LRGVDC exceeded its liabilities as of December 31, 2018 by \$12,488,835 (net position). Of this amount \$33,917 (unrestricted net position) may be used to meet LRGVDC's ongoing obligations to citizens and creditors in accordance with LRGVDC's fund designation and fiscal policies. LRGVDC's net position increased by \$1,030,569 which is principally the net difference between outlays for capital assets and current period depreciation.

As of the close of the 2018 calendar year, LRGVDC's governmental funds reported combined ending fund balances of \$33,917. Of this amount, \$33,917 is unassigned fund balance available for use in accordance with LRGVDC's fund designation and fiscal policies.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to LRGVDC's basic financial statements. LRGVDC's basic financial statements comprise three components: government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of LRGVDC's finances in a manner similar to private-sector business.

The statement of net position presents information on all of LRGVDC's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of LRGVDC is improving or deteriorating.

The statement of activities presents information showing how LRGVDC's net position changed during the most recent calendar year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods.

Both of the government-wide financial statements are designed to distinguish functions of LRGVDC that are principally supported by grants and regional appropriations (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). However, all of LRGVDC's activities are considered governmental activities and, accordingly, there are no business-type activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. LRGVDC, like other similar governmental entities, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of LRGVDC are classified as governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the calendar year. Such information may be useful in evaluating a government's near-term financing requirements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
DECEMBER 31, 2018

The focus of governmental funds is narrower than that of the government-wide financial statements; therefore, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of LRGVDC's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and change in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The LRGVDC maintains a general fund that is used to account for all its financial resources. The general fund's financial resources consist primarily of resources that are restricted to expenditures for specified grant purposes. These restricted resources are not accounted for in a special revenue fund because the Council is not legally or contractually required to maintain separate funds and the applicable grant requirements were satisfied through maintaining separate accounts within the general fund. The major federal funds are Department of Health and Human Services and Department of Transportation and the State major funds are Texas Department of Aging and Disability Services, Texas Department of Transportation, Commission on State Emergency Communications and the Texas Commission on Environmental Quality.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 18-29 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. LRGVDC's assets exceeded liabilities by \$12,488,835 at December 31, 2018. The following table reflects the condensed Statement of Position.

The portion of LRGVDC's net position, \$12,454,918 represents investments in capital assets. The balance of unrestricted net position, \$33,917, may be used to meet LRGVDC's ongoing obligations in accordance with LRGVDC's fund designation and fiscal policies. At the end of the current calendar year, LRGVDC is able to report a positive balance in all categories of net position.

Financial Analysis of LRGVDC's Funds

Governmental Funds

The focus of LRGVDC's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing LRGVDC's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the calendar year.

At the end of the current calendar year, LRGVDC's governmental funds reported a combined ending fund balance of \$33,917. One hundred percent of this total amount, \$33,917, constitutes unassigned fund balance.

Capital Assets Administration

LRGVDC's investment in capital assets for its governmental activities as of December 31, 2018 amounts to \$13,798,814 (net of accumulated depreciation). This investment in capital assets comprises furniture, land, building, buses, vans and equipment. Major changes in capital assets occurring during the current calendar year include the following:

Long Term Debt

At the end of the current fiscal year, the District had total contractually obligated long-term debt of \$1,343,896. The details of the change in debt from last year is as indicated below:

	2018	2017	Increase/ Decrease 2018-2017
Note Payable - Current Portion	\$ 77,649	\$ 74,749	\$ 2,900

Annual Budgets

The Council prepares its Board approved budget with information available at the time it is prepared. Because the Council's principal revenues and resulting expenditures are from activities relating to Federal and State grants, it is not possible to predict the timing of these revenues and expenditures or the ultimate amount to be included in the final budget. In addition, it is the practice of the Council not to budget local revenues until it has determined the amount and timing of funds that will be received in order to support its grant programs.

Economic Factors

The 3 counties that make up our region all have unique character and appeal, as well as unique economic circumstances. The sections below summarize major components of our regional economy, giving an overview of the local and regional economies. LRGVDC's Board of Directors approved a \$27,395,088 budget for the 2019 calendar year.

Overview of the Local Economy

Our region consists of 3 counties. The LRGVDC region has an overall unemployment rate of 7.57%, an average median household income of \$34,665, with 30.73% of the population living below the poverty level. The table below gives details of the economies of each county within our region by looking at the major factors affecting the economy, specifically as it relates to the individual citizens of our region.

Table A-5

Future Economic Outlook

The LRGVDC region, like most regions in the state of Texas, has been affected by the recent economic downturn. LRGVDC receives most of its funding from state and federal sources which means the funding is secure, but can be reduced as determined by legislative priorities. However, we believe the region is an emerging community whose quality of life serves as an excellent foundation for future growth and development through the cooperative capitalization of regional assets. The consistent low unemployment and growth of new industries mean the future looks as bright as ever for the region. The regional cooperation that exists in this region only serves to enhance the positive outlook.

Contacting LRGVDC's Financial Management

This financial report is designed to provide a general overview of LRGVDC's finances for all those with an interest in the organization. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Executive Director, Lower Rio Grande Valley Development Council, 301 W. NOTES TO THE FINANCIAL STATEMENTS

LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Lower Rio Grande Valley Development Council (the “Council”), a non-taxpaying entity, was created in 1967, under the authority of Texas Civil Statutes. Its policy-making body is a twenty-five member Board of Directors.

The Council is a voluntary association of local governmental units and associate members located within Cameron, Hidalgo, and Willacy counties. The objective of the Council is to encourage and permit local units of government to join and cooperate with one another and with representatives of major economic interests, citizen groups and groups experiencing economic distress to improve the health, safety and general welfare of their citizens and to plan for the future development of the Region.

The basic financial statements of the Council have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

As required by GAAP, these financial statements solely present the Council’s financial activities. No other entities are included in the Council’s reporting entity because no other entities have significant operational or financial relationships with the Council.

The basic financial statements are the core of general-purpose external financial reporting for state and local governments. The basic financial statements have three components:

- *Government-wide financial statements.* GAAP require that the Council provide a government-wide statement of net position and a government-wide statement of activities that are to include all the Council’s governmental activities and business-type activities. These government-wide financial statements are to be presented using the economic resources measurement focus and the accrual basis of accounting, the same measurement focus and basis of accounting employed by private-sector business enterprises and not-for-profit organizations.
- *Fund financial statements.* The financial statements for governmental funds are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, the governmental fund financial statements must present a summary reconciliation to explain differences between the data reported in the governmental funds and the data reported for the corresponding *governmental activities* in the government-wide financial statements.
- *Notes to the financial statements.* The data displayed on the face of the government-wide and fund financial statements must be accompanied by various disclosures to ensure that a complete picture is presented in the financial statements. This additional disclosure is presented in the form of a single set of notes placed immediately following the government-wide and fund financial statements.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the non-fiduciary activities of the primary government. The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a function and 2) grants and contributions that are restricted to meeting the operational requirements of a particular function. Regional appropriations and other items not properly included among program revenues are reported instead as *general revenues*.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are reported when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Council considers revenues to be available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred.

Governmental fund grant resources and supportive service fees are susceptible to accrual and recognized as revenues to the extent of qualifying expenditures recorded for the individual programs since the Council is only reimbursed for qualifying expenditures incurred for grant and contract purposes. Membership dues become measurable and available when cash is received by the Council and are recognized as revenue at that time.

Governmental funds account for most of a government's general activities. The general fund is used to account for all financial resources of the Council. The general fund's financial resources consist primarily of resources that are restricted to expenditures for specified grant purposes. These restricted resources are not accounted for in a special revenue fund because the Council is not legally or contractually required to maintain separate funds and the applicable grant requirements were satisfied through maintaining separate accounts within the general fund.

The 9-1-1 network program accounts for the activities relating to maintaining the 9-1-1 equipment and databases needed to dispatch 9-1-1 calls.

Amounts reported as *program revenues* include 1) charges to customers, and 2) operating grants and contributions. *General revenues* include membership dues and miscellaneous income.

When both restricted and unrestricted resources are available for use, it is the Council's policy to use restricted resources first, then unrestricted resources as needed.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position

1. Cash and Investments

The Council's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition. Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximate fair value.

Statutes authorize the Council to invest in obligations of the United States Treasury, or its agencies and instrumentalities; direct obligations of the State of Texas or its agencies; obligations of states, agencies, counties, cities and other political subdivisions of any state having a rating not less than A; certificates of deposit; prime domestic bankers' acceptances; certain commercial paper; certain mutual funds; and fully collateralized repurchase agreements. The Council's only investment is the Texas Local Government Investment Pool (TexPool). TexPool investments are reported at amortized cost.

The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, which includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool; they review the investment policy and management fee structure. Finally, TexPool is rated AAAM by Standard & Poor's. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as the office of the Comptroller of Public Accounts, for review. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position (Continued)

2. Fair Value Measurements

The Council categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable for the assets or liabilities, which are typically based on the Council's own assumptions, as there is little, if any, related market activity.

Fair Values of assets measured on a recurring basis at December 31, 2018, are as follows:

			Fair Value Measurement at		
	Carrying	Fair	Reporting Date Using		
	Value	Value	Level 1	Level 2	Level 3
Assets:					
Cash and Cash Equivalents	\$ 2,255,573	\$ 2,255,573	\$ 107,925	\$ 2,147,648	\$ -
Grant Receivables	4,167,710	4,167,710	4,167,710	-	-
Prepaid Expenses	57,811	57,811	57,811	-	-
Other Assets	172,376	172,376	172,376	-	-
Liabilities:					
Accounts Payable	\$ 3,505,839	\$ 3,505,839	\$ 3,505,839	\$ -	\$ -
Payroll and Accrued Liabilities	3,113,714	3,113,714	3,113,714	-	-
Current/Long-Term Debt	1,343,896	1,343,896	1,343,896	-	-

The carrying amounts reflected in the statement of net position for cash and cash equivalents and current portion long-term debt approximate the respective fair values due to the short maturities of those instruments. The fair values for receivables, payables and long-term debt are based primarily on quoted market prices for those or similar instruments.

3. Receivables

The council's receivables consist mainly on amounts due by state and federal grantor agencies. All receivables are reported net of estimated uncollectible accounts.

4. Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

5. Capital Assets

Capital assets, which include buildings and land, vans and buses, furniture and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the Council as assets with an initial individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized.

December 31, 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position (Continued)

5. Capital Assets (Continued)

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	30 Years
Improvements	20 Years
Vans	5-10 Years

6. Compensated Absences

It is the Council's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the Council does not have a policy to pay any amounts when employees separate with the Council. All vacation pay is accrued when incurred in both the government-wide and the governmental fund financial statements. It is the Council's policy to accumulate only up to eighty hours, any accrued vacation accumulated over the limit amount, has to be used before the year ends and cannot be carried forward.

7. Unearned Revenue

The Council records as unearned revenues amounts received on grants in excess of expenditures incurred in those grants for which the obligation period has not ended.

8. Net Position/ Fund Equity

In the government-wide financial statements, net position is classified as invested in capital assets, net of related debt, restricted net position, or unrestricted net position. The three categories are described below:

- *Invested in Capital Assets, Net of Related Debt:* This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.
- *Restricted Net Position:* This category presents external restrictions imposed by creditors, grantors, contributors, laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation. Currently, the Council has no restricted net position.
- *Unrestricted Net Position:* This category represents the net position of the Council which is not restricted for any project or any other purpose.

The Council applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Unreserved fund balance is that portion of fund balance which is undesignated and available for budgeting in future years.

In the governmental fund financial statements, fund balances are classified as follows:

- *Non-spendable*—Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- *Restricted*—Amounts that can be spent only for specific purposes because of the Council Charter, the Council Code, state or federal laws, or externally imposed conditions by grantors or creditors.
- *Committed*—Amounts that can be used only for specific purposes determined by a formal action by Board of Directors ordinance or resolution.
- *Assigned*—Amounts that are designated upper management for a particular purpose, but are not spendable until a budget amendment is passed or there is a majority vote approval (for capital projects or debt service, if any) by the Board of Directors.
- *Unassigned*—All amounts not included in other spendable classifications.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position (Continued)

9. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Annual budget

The Council prepares an annual operating budget which is approved by the Board of Directors. The budget is prepared from the best information available and is subject to change since the primary funding sources of the Council are federal, state and local grants whose grant periods may or may not coincide with the Council's year end. Also, the grant amounts may change or additional grants may be added due to grant funding agency requirements; therefore, grant amounts awarded have to be converted to the Council's year end and grant revenue amounts estimated may change.

B. Budget Basis of Accounting

The Council prepares its annual budget on a basis (budget basis), which differs from generally accepted Principles (GAAP Basis). The budget and all transactions are presented in accordance with the Council's method (budget basis) in the Statement of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual-General Fund to provide a meaningful comparison of actual results with the budget.

C. Excess of General Fund Budget

Expenditures exceeded appropriations in the following line items:

<u>Expenditures</u>	<u>Excess</u>
Direct Salaries	\$ 22,483
Employee Benefits	
Direct Salaries	\$ 73,979
Travel	\$ 49,290
Consumable Supplies	\$ 39,081
Other Costs	\$ 2,015,613
Non-Matching Expenditures	\$ 2,727

D. Finance –Related Legal and Contractual Provisions and Fund Equity/Net Position Deficit

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures", violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None	Not Applicable

There was no deficit fund balance/net position at year end.

III. DETAILED NOTES ON FUNDS

A. Deposits and Investments

1. Deposits

As of December 31, 2018, the Council's bank balance of \$199,358 was fully-insured and fully-collateralized by pledged securities and FDIC insurance coverage of \$250,000. The council has one depository account: JPMorgan Chase Bank.

III. DETAILED NOTES ON FUNDS (CONTINUED)

A. Deposits and Investments (Continued)

1. Deposits (Continued)

Cash and cash equivalents included on the Statement of Net Position consist of the following:

	2018
Bank Deposits:	
Local Funds	\$ 107,925
Total Bank Deposits	107,925
Cash Equivalents:	
Investment in TexPool	2,147,648
Total Cash Equivalents	2,147,648
Total Cash and Cash Equivalents	<u>\$ 2,255,573</u>

2. Investments

The Council is required by Government Code Chapter 2256, the Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written, primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management, and include a list of the types of authorized investments in which the investing entity's funds may be invested, and the allowable stated maturity of any individual investment owned by the entity. The Act requires an annual audit of investment practices. Audit procedures in this area are conducted as a part of the audit of the general purposes financial statements disclosed that in the areas of investment practices, management reports and establish appropriate policies. The Council adheres to the requirements of the Act. Additionally, investment practices of the Council are in accordance with local policies. The Act determined the types of investments which are allowable for the Council. These include, with certain restrictions. 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers' acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper. The Council investments at December 31, 2018 are shown below:

<u>Investment or Investment Type</u>	<u>Maturity</u>	<u>Fair Value</u>
TexPool	Less than three months	\$ 2,147,648
Total Investment		<u>\$ 2,147,648</u>

The Council use of amortized cost to value portfolio assets and the following guidelines to maintain the portfolio consistent with a stable net asset value per share:

- The maximum remaining maturity of any security of other investment acquired for the portfolio shall be 397 calendar days or less.
- The portfolio should maintain a weighted average maturity of 60 days or less.
- The portfolio should maintain a weighted average life of 120 days or less.

The Council's recurring fair value measurement as of December 31, 2018 were related to its investments in TexPool. These investments are valued using significant other observable inputs of the underlying securities and bonds (Level 2 inputs).

Analysis of Specific Deposit and Investment Risks:

GASB Statement No. 40 requires a determination as to whether the Council was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Inherent Rate Risk

Risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the Council was not exposed to interest rate risk.

IV. OTHER INFORMATION

A. Deferred Compensation Agreement

In January 1992, the Council entered into a deferred compensation agreement with its current executive director. Provisions of the agreement require the Council to make payments of \$15,000 a year in each of the fifteen years following the retirement of the executive director. The Council purchased a whole life insurance policy to fund its obligation under the agreement.

B. Retirement Plan

The Council (employer) has adopted a defined contribution retirement plan, LRGVDC Employees' Retirement Plan, for the benefit of its employees. The amount of the employer contribution is discretionary and shall be determined by resolution of the Board of Directors annually. Employees are permitted to contribute to the plan. Employees are eligible for the plan on any January 1 or July 1 after the date they have completed at least 6 months of service. For vesting purposes, a year of service is any plan year in which the employee works at least 1,000 hours. An employee is fully vested after 5 years of service. Employer contributions for 2018 were \$682,488. There are 145 employees covered by the plan. The plan assets are managed by VOYA Financial. The value of the plan assets, after subtracting liabilities of the plan, was \$4,791,061 as of December 31, 2018, compared to \$4,929,636 as of December 31, 2017.

C. Risk Management

The Council is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by self-insurance funds and commercial insurance purchased from independent third parties. The Council is an employer member of the Texas Municipal League (TML) Intergovernmental Risk Pool, self-insurance funds in which contributions from members are used to pay covered losses.

The TML Intergovernmental Risk Pool was established to formulate, develop, and administer a program of self-insurance funds for political subdivisions of the State of Texas to obtain lower costs for workers' compensation, property and liability coverage. Annual contribution rates are determined by the TML Intergovernmental Risk Pool Board of Directors. The Council pays annual premiums to TML Intergovernmental Risk Pool for workers' compensation, property and liability coverage. TML Intergovernmental Risk Pool will provide coverage to the Council up to the fund's limited liability amounts, \$2,000,000 for general liability and errors and omissions, \$1,000,000 for automobile liability, actual cash value for auto physical damage, and \$11,797,413 for real and personal property. There is no limited liability amount for workers' compensation coverage. The Council had no significant reductions in insurance coverage as compared to its previous fiscal year and no settlement amounts that exceeded insurance coverage for each of its past three fiscal years.

IV. OTHER INFORMATION (CONTINUED)

D. Commitments

1. Grant Programs

The Council participates in several federal and state assisted grant programs. Under the terms of these grants, the Council is subject to program compliance audits by their grantors or their representatives. Such audits could result in claims against the Council for disallowed costs or noncompliance with grantor restrictions. No provision has been made for any liabilities that may arise from such audits since the amounts, if any, cannot be determined at this date.

2. Litigation

The Council is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Council's legal counsel and management that resolution of these matters will not have a material adverse effect on net position of the Council at December 31, 2018.

E. Allocation of Personnel Costs and Indirect Costs

Salaries and related benefits are charged as either direct or indirect costs, based on actual time spent. Indirect costs are allocated to activities based on an indirect cost plan, which utilized direct salaries and benefits charges as the base for allocation.

F. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the general fund. The amount, if any, of expenditures, which may be disallowed by the grantor, cannot be determined at this time although the Council expects such amounts, if any, to be immaterial.

G. New Accounting Principles

In calendar year 2018, the Council implemented:

- a. *Statement No. 84* objective is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval, or condition is required to be taken or met by the beneficiary to release the assets.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

The adoption of Statement No. 84 has no impact on the Council's financial statements.

- b. *Statement No. 85* addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pension and other postemployment benefits (pension and other postemployment benefits [OPEB])).

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

The adoption of Statement No. 85 has no impact on the Council's financial statements.

LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
NOTES TO THE FINANCIAL STATEMENTS

IV. OTHER INFORMATION (CONTINUED)

G. New Accounting Principles (Continued)

- c. *Statement No. 86* objective is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

Governments that defease debt using only existing resources should provide a general description of the transaction in the notes to financial statements in the period of the defeasance. In all periods following an in-substance defeasance of debt using only existing resources, the amount of that debt that remains outstanding at period-end should be disclosed.

For governments that extinguish debt, whether through a legal extinguishment or through an in-substance defeasance, this Statement requires that any remaining prepaid insurance related to the extinguished debt be included in the net carrying amount of that debt for the purpose of calculating the difference between the reacquisition price and the net carrying amount of the debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

The adoption of Statement No. 86 has no impact on the Council's financial statements.

The following pronouncements were also issued by GASB but not applicable to Lower Rio Grande Valley Development Council as of December 31, 2018.

- a. *Statement No. 83* addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

This Statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. If an ARO (or portions thereof) has been incurred by a government but is not yet recognized because it is not reasonably estimable, the government is required to disclose that fact and the reasons therefor. This Statement requires similar disclosures for a government's minority shares of ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
 AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
 STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
 Lower Rio Grande Valley Development Council

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lower Rio Grande Valley Development Council, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Lower Rio Grande Valley Development Council's basic financial statements, and have issued our report thereon dated August 12, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Lower Rio Grande Valley Development Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lower Rio Grande Valley Development Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Lower Rio Grande Valley Development Council's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

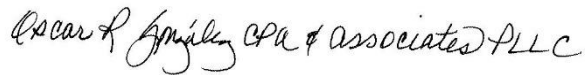

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lower Rio Grande Valley Development Council's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an

opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
AND THE STATE OF TEXAS SINGLE AUDIT CIRCULAR

To the Board of Directors
Lower Rio Grande Valley Development Council

Report on Compliance for Each Major Federal and State Program

We have audited the Lower Rio Grande Valley Development Council's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Lower Rio Grande Valley Development Council's major federal and state programs for the year ended December 31, 2018. Lower Rio Grande Valley Development Council's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Lower Rio Grande Valley Development Council's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas Single Audit Circular (State Circular). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Lower Rio Grande Valley Development Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Lower Rio Grande Valley Development Council's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Lower Rio Grande Valley Development Council, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended December 31, 2018.

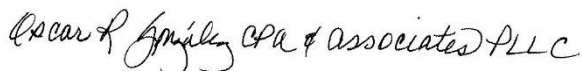

Report on Internal Control over Compliance

Management of the Lower Rio Grande Valley Development Council is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Lower Rio Grande Valley Development Council's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Lower Rio Grande Valley Development Council's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL
Notes to Schedule of Expenditures of Federal/State Awards
For the Year Ended December 31, 2018

1. General - The accompanying Schedule of Expenditures of Federal/State Awards (Schedule) presents the activity of all the federal awards of the Lower Rio Grande Valley Development Council (Council). The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). The Council's reporting entity is defined in Note 1 to the Council's basic financial statements. All federal awards received directly from Federal agencies and state and federal awards passed through state agencies are included on the Schedule. Because the Schedule presents only a selected portion of the operations of the Council, it is not intended to and does not present the financial position or changes in net position of the Lower Rio Grande Valley Development Council.

2. Basis of Accounting – Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB A-133, wherein certain types of expenditures are not allowable or are limited to reimbursement.

The Council has elected not to use the 10% *de minimis* indirect cost rate as allowed under the Uniform Guidance.

3. Relationship to Basic Financial Statements – Federal and State awards expenditures are reported in the Council's basic financial statements as follows:

Total governmental fund expenditures	\$25,520,234
Less: Governmental fund non-grant general government expenditures	(1,852,978)
Grant expenditures funded with Council resources	(243,640)
	<hr/>
Grant expenditures per Schedule	<u>\$ 23,423,616</u>

4. Relationship to Federal Financial Status Reports – Amounts reported on the Schedule may not agree with the amounts reported in the related Federal/State financial status reports filed with grantor agencies, because of the effect of accruals made in the Schedule.

5. Loan Programs – The following are the loan balances that are still under compliance requirements for the Department of Housing & Urban Development – Disaster Recovery Program at the end of December 31, 2018:

HAP	\$ 0
HOP	\$ 81,383
Rapid	\$ 0
Multi-Family Construction	\$ 11,505,798
Single-Family Construction	\$ 909,772
