Our mission in Texas

Protecting communities that are vulnerable to flooding and sea level rise is a statewide issue that must be met with **statewide solutions**—it is vitally important to our well-being, economic strength, and security.

With effective flooding and sea level rise planning our communities can adapt and thrive. **But we must act now.**

Our 4 pillars for coastal and inland solutions

Economy

Invest in infrastructure that boosts the economy and protects property values

Communities

Use smart planning to keep communities safe and save taxpayer dollars

Rebuilding

Build back stronger to protect communities from future flooding

Military

Ensure our military installations are ready to deploy 365 days a year

What we offer

Best-in-class educational guides

Scalable educational resources to meet our members' needs

Tools for effective communication

Opportunities and tools for communicating about flooding with stakeholders at all levels

Networks of leaders on flooding

Forum to connect virtually and in-person with other leaders and share learnings

Competitive local resilience pilots

Competitive local pilots that promote deeper engagement on flooding and sea level rise

Platform for advocacy and education

Strong platform that makes local voices and needs heard at the state and federal level

Adaptation for All guide

AFC's Adaptation for All guide provides several examples of how to build flood resilience for communities of every size.

- Purpose is to help local leaders determine approaches to flooding or sea level rise that can work best for them
- Highlights 26 approaches broken down by cost, benefits, and implementation considerations
- Most of the case studies found in the guide are from communities with populations less than 50,000
- Developed in collaboration with the Embassy of the Kingdom of the Netherlands and Arcadis

Flood Funding Finder

This tool breaks down federal grant and technical assistance programs best suited for flooding and sea level rise initiatives.

Identifies programs by characteristics including:

Requires Presidential Disaster Declaration

No local cost share requirements

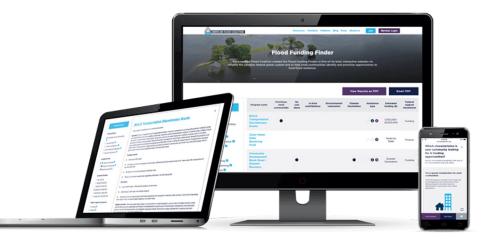

Special considerations for small municipalities

Supports project planning

Administered by state

Federal Policy Guides:

How can your community prepare for infrastructure programs and funding?

Stay informed

- Reach out to state contacts: States will play a key role in administering programs and distributing funds.
- Monitor updates from the Administration: Visit build.gov and sign up for email updates.
- ☐ Follow AFC: Our blog, newsletter, and social media will have all the latest information on IIJA and IRA implementation.

Start planning

- ☐ Review and evaluate local planning: Consider projects that might be a good fit for federal funding.
- ☐ Ensure that your community's Hazard Mitigation Plan is up to date: This is a requirement for several programs.
- Getting buy-in from community members early on will streamline the process and lead to a stronger project plan.
