Upon conclusion of action on the minutes, Chairman Darling moved to Item 3: Public Comment, there being none, he moved to Item 4: Administration.

A. Consideration and General Membership Action on FY 2023 Annual Report and Budget

Mr. Manuel Cruz, LRGVDC Executive Director was recognized and informed the General Membership that the Annual Report & Budget Committee met on Thursday, January 12, 2023, to discuss and make a recommendation on the FY 2023 Annual Report and Budget. He summarized the purpose of the Annual Report and the changes in the budget from last year. Chairman Darling added that the LRGVDC does a very good job representing this region and all the projects they are tasked with. ***Mr. Troy Allen made a motion to approve the FY 2023 Annual Report & Budget as presented. Mr. Ron Mills seconded the motion and upon a vote the motion carried unanimously.***

B. Consideration and Action to Accept the Quarterly and Annual Investment Reports

Ms. Crystal Balboa, Finance Director, was recognized and provided a brief summary of both reports. ***Mayor Norie Gonzalez Garza made a motion to accept the Quarterly and Annual Investment Reports as presented. Mayor Oscar Montoya seconded the motion, and upon a vote the motion carried unanimously.***

#### C. Presentation on Port of Brownsville

Mr. Eduardo Campirano, Port Director and CEO was recognized and gave a presentation on the port's current projects. Some of the projects are deepening the channel, and the LNG Project-Rio Grande LNG that will take place in the next decade. He also informed the Board that the port has opportunities with a \$14.5 M grant awarded by MARAD, a \$32 M investment with Forza Steel, a \$55 M investment with Sunoco for a refined products terminal, and the Pesqueria Project which began operation last spring. A copy of his presentation is available at <https://www.lrgvdc.org/meetings.html>.

#### D. Presentation on Unidos Contra la Diabetes

Mr. Moises Arjona, Jr., Collective Impact Director was recognized and gave the Annual Update on Unidos Contra La Diabetes (UCD). The presentation included a brief history of UCD, statistics on adults with diabetes in the RGV, the growing number of children with diabetes, causes and reducing type 2 diabetes through education and awareness. He showed a list of UCD's partners and community resources, their social media accounts, and contact information for UCD staff. A copy of his presentation is available at <https://www.lrgvdc.org/meetings.html>.

#### E. Presentation on U.S. Citizenship and Immigration Services (USCIS)

Ms. Norma Limon, Harlingen Field Office Director was recognized and gave a presentation that began with Executive Order 14012 on Restoring Faith in Our Legal Immigration Systems and Strengthening Integration and Inclusion Efforts for new Americans which was created on February 2, 2021, by President Joe Biden. Ms. Limon summarized the Executive Order, a part of which is the creation of an Interagency Naturalization Working Group (NWG). She presented a list of current NWG members and summarized their goals and strategy for promoting naturalization. A copy of her presentation is available at <https://www.lrgvdc.org/meetings.html>.

Upon conclusion of the presentations Chairman Darling moved to Item 5. Department Reports.

#### A. Community & Economic Development

##### Program Action Items

Mr. Rick Carrera, Director of Community & Economic Development, was recognized and addressed the following item:

1. Consideration and Action to Approve 2022 Scrap Tire Management and Available Alternatives in Texas' Lower Rio Grande Valley Development Council Region

Mr. Carrera informed the Board that the attached summary highlights findings and recommendations related to data quality, scrap tire generation, processing, end uses, and transportation. The purpose of this report is to identify the economic costs and benefits of diverting scrap tires from landfills within the region.

***Mayor David Suarez made a motion to approve the 2022 Scrap Tire Management and Available Alternatives in Texas' Lower Rio Grande Valley Development Council Region as presented. Mayor Oscar Montoya seconded, and upon a vote the motion carried unanimously.***

Upon conclusion of action, Mr. Carrera stated that the findings from this study will be presented as part of a TCEQ webinar that many councils of governments/regional planning commissions are promoting throughout the state.

##### Program Status Reports

Mr. Carrera then yielded the floor to Chairman Darling to give the reservoir level report. Chairman Darling stated that the combined storage is 32.16% as of December 14, 2022, which is very low, but an improvement over last summer when the levels were at 20%. Chairman Darling also informed the Board that there was an article in the paper about the condition of the Amistad Reservoir. He encouraged Board Members who go to Austin on behalf of their cities to meet with our representatives to talk to the IBWC, the US Federal Government, and the Mexican Government to fix the reservoirs. He added that both reservoirs have had sink holes for years that cost the Valley water.

Chairman Darling then informed the Board that the detailed Community & Economic Development department program status reports are available in the meeting packet for review.

**OVERVIEW**

The **American Flood Coalition** (the “Grantor”) has awarded a grant of **\$31,000.00** to **Lower Rio Grande Valley Development Council** (the “Organization”). This grant agreement (“Agreement”) begins on February \_\_, 2023 and ends on May 21, 2023. The grant is intended to host an event and follow-on activities by the Lower Rio Grande Valley Development Council for local elected officials and community leaders to help them better understand state and federal opportunities available to assist in their approach to building and implementing flood risk models, identifying and developing project possibilities, and financing solutions. It can be used to support staff time, the initial and additional convenings, or other activities that support the engagement, as subject to the terms and conditions set forth hereinafter.

**Payments:** Payment will be provided within 30 business days of the Grantor receiving an invoice from the Organization referencing this Agreement and providing the documentation set forth below from the Organization. Provided that the Grantor has received an invoice and documentation, the Grantor shall issue full payment of the grant to the Organization at the commencement of the grant.

All payments are subject to this Agreement’s terms and conditions, including the specific required documentation detailed below. The following documentation for the Organization is required prior to the disbursement of the grant funds: W9 and Previous year’s annual report.

## DISCUSSION DRAFT

**Reporting:** Please submit reports by email to the primary contact of the American Flood Coalition according to the schedule (“Reporting Schedule”) described below. The reporting guidelines included within this Agreement describe the requested content and format. Please be as concise and direct as possible. The Reporting Schedule consists of an interim update and a Final Report, as follows:

- Interim Update Report: **Thursday, April 6, 2023**
- Final Report: **Friday, May 19, 2023**

**Bi-weekly planning coordination:** On a bi-weekly (i.e., every other week) basis, please meet with the primary contact of the American Flood Coalition to discuss the progress on activities and deliverables within the project proposal, as well as any risks that may affect timing. These touch points should be brief and coordinate on ongoing and completed action items.

**Final Report:** This report should consist of two parts, a narrative and a financial report, and be no longer than three pages. The Organization is encouraged to include samples of its work product, press clippings, and other material that illustrate progress; should such samples be included, these will not be included in the total page count.

The narrative should review activities performed during the grant period to support the purpose of the Agreement. The financial report should provide a breakdown of how the funds were utilized to support the purpose of the Agreement. This can be as simple as noting that all of the funds were used to support a specific staff member working towards the purpose of the grant.

## OTHER TERMS AND CONDITIONS

**Representations:** The signer of the Agreement for the Organization represents that (a) the Organization continues to maintain its organizational status pursuant to the relevant State Law and/or Section of the Internal Revenue Code; (b) the information that the Organization has provided to the American Flood Coalition is accurate and complete and does not omit anything relevant to an informed decision to make this grant; (c) the grant, its proposed uses, and this Agreement do not conflict with any of the Organization’s obligations; (d) the individual signing this Agreement on behalf of the Organization is authorized to do so; and (e) these representations will remain accurate. Please notify us promptly of any changes to the contrary.

**Election and Lobbying Activities:** The Organization will not use the Grantor’s funds for political activities, including voter registration or any lobbying efforts.

**Other Undertakings:** The Organization will (a) use this grant solely as permitted by law; (b) provide the American Flood Coalition with accurate and complete information; (c) separately account for the American Flood Coalition’s funds, although it may commingle them with other assets; (d) invest the American Flood Coalition’s funds only in secure, liquid assets pending their expenditure; and (e) use any earnings on the American Flood Coalition’s funds only for the purposes of this grant.

**Expectations:** The American Flood Coalition expects that the Organization will comply with the terms of this Agreement, maintain its current tax-exempt status, organizational and project leadership, and ensure that its financial condition, operations, and programs remain stable. The Organization will notify the American Flood Coalition promptly of any material changes within 30 days. If these expectations are not met through the completion of the grant period, the American

Flood Coalition may terminate the grant and seek the return of any funds that have been expended for purposes other than the activities specified in the final proposal and budget materials. The Organization will promptly return any grant funds not expended during the term of this grant for the purposes of the Agreement unless otherwise agreed.

**Disclosure, Confidentiality, and Intellectual Property:** The Organization shall disclose any outside activities or interests that may conflict with the best interests of the American Flood Coalition. Prompt disclosure is a requirement under this Agreement.

During the course of fulfilling this grant, the Organization and the American Flood Coalition may exchange confidential information and such information should be protected from improper disclosure. The Organization and the American Flood Coalition agree that each party will not divulge, disclose or communicate any confidential information without prior written consent of either party. Such confidentiality provision of this Agreement shall remain in effect after the grant period elapses.

The Organization will own all copyright interests in materials produced using this grant. However, the American Flood Coalition retains a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, and otherwise use and to authorize others to use these materials for any purpose.

**Publicity:** The American Flood Coalition may include information about this grant in its public reports and on its website, which may include links to the Organization's website. The American Flood Coalition may also refer to the grant in a press release, in which case a copy would be sent to the Organization in advance. Please let us review any press release or similar announcement that mentions the American Flood Coalition before its publication.

**Indemnification:** The Organization agrees to indemnify and hold harmless the American Flood Coalition and its members, managers, directors, officers, employees, and affiliates from and against all taxes, losses, damages, liabilities, costs and expenses, including attorneys' fees and other legal expenses, arising directly or indirectly from or in connection with, any negligent, reckless, or intentionally wrongful act of the Organization, its employees, or agents; any breach by the Organization or their employees or agents of any of the covenants contained in this Agreement; any failure of the Organization to comply with all applicable laws, rules and regulations; or any violation or claimed violation of a third party's rights resulting in whole or in part from the American Flood Coalition's use of the work product of the Organization under this Agreement.

# Lower Rio Grande Valley Development Council Board of Directors Meeting

February 22, 2023

## Item #5: Department Reports

### A. Community & Economic Development

#### Program Status Reports

- Economic Development Administration

Staff continue to meet with regional Economic Development Organizations (EDO) concerning the planning of projects that will provide economic impact. EDO's have been contacted to inform them on EDA Public Works and Economic Adjustment Act (PWEAA) funding availability. Staff have also been active with regional partners in area tours, getting first-hand views of project potential while meeting with all involved with potential project development, and working towards a regional group of economic development professionals that meet regularly to keep effective lines of communication.

Technical assistance continues to be provided to entities who are interested in applying for EDA grants, as well as hosting or co-hosting beneficial workshops and outreach. Staff also serves as the regional point of contact for the Economic Development Administration (EDA) and will continue to disseminate information accordingly. Staff also continues to coordinate efforts with other governmental entities on their economic development related activities in order to maximize benefit of all projects and objectives for the region and avoid any duplication of efforts and resources. Several different entities are conducting economic development outreach efforts, included TWDB, TxDot, Texas GLO, and others.

Staff are available to provide technical assistance, project development, and grant administration on EDA proposals and projects. For any assistance or information on EDA in general, contact the Community and Economic Development Department.

- Pandemic Response

The economic resiliency plan is in the final draft stages. The draft is in the minor final adjustment stage which includes some case studies and examples of best practices undertaken by other regions given similar circumstances. The economic resiliency plan will stand as document information which will help actionable plans and serve as a starting point moving forward to alleviate some of those issues.

The LRGVDC continues to be proactive as a liaison between various governmental levels and stakeholders. Staff have had discussions with area EDOs on further potential initiatives to help with resiliency efforts including the recruitment and marketing efforts needed for new investment in the area. Staff has also brought

together and coordinated efforts between governmental, workforce, higher education, and other entities to encourage collaboration on funding opportunities and other initiatives to address workforce needs and other facets of local economic development. Participation in local area economic development groups continue as well to further provide regional efforts. Resiliency efforts for the regional tourism industry continues to be a focus also, utilizing Explore RGV as a springboard for marketing efforts. See the Explore RGV updates further in this report for details.

Staff continues assisting the Texas General Land Office (GLO) with their economic development study that focuses on resiliency from natural disasters. Staff have advised and assisted the GLO on outreach efforts and will continue working with the GLO throughout the duration of the study and scope of work.

Please reach out! We are happy to provide any information, resources, or assistance available.

- Regional Small Cities Coalition

A Regional Small Cities Coalition (RSCC) meeting will be held in person on March 9, 2023, at 11:30 am at the City of Alamo. Staff continues to disseminate vital information to the small cities via email. If you have questions, you may contact Brenda Salinas [bsalinas@lrgvdc.org](mailto:bsalinas@lrgvdc.org).

- Explore RGV

Staff efforts to provide an improved app for this platform continue, updates are near completion. Those efforts include the updated and improved application loaded on the platform for download by end users. The creative development on the improvements has been completed and staff is waiting to approve final version. Planning for a re-launch event is also in progress. Staff is working on an estimated budget to meet the project launching structural requirements. Staff are working on promotional development to conduct an event where the revised, improved, and effective project will be presented to the general public, stakeholders, and tourism industry. As soon as the completion of the set up for the app is done, staff will proceed with next steps. Our plan is to concentrate on a soft launch to improve app and social media following. Staff also continue to work with different regional airlines that have incoming flights to the RGV from different parts of the county as well as international markets. The intention is to partner up with the airlines to promote the product/project onboard, as well as to blitz and package with them to the final consumer. Staff are working with Dallas and Houston CVB to cross market destinations as staff feel the tourism markets are similar. Media outlets are also being contacted to ensure the launch event has exposure and coverage that creates additional massive awareness. Following these initiatives, the next steps will be to reach out to the commercial and private sector to attract the business community in association with Explore RGV. In addition, staff will incorporate as many travel industry participants as possible for a well-rounded comprehensive, and complete travel reference.

- Community & Economic Development Assistance Fund

The Community Development Fund is the largest fund category in the Texas Community Development Block Grant program (CDBG). This fund is available through a competition in each of the 24 state planning regions. Although most funds are used for Public Facilities (water/wastewater infrastructure, street and drainage improvements and housing activities), there are numerous other activities for which these funds may be used. Visit our Community Development webpage at <http://www.lrgvdc.org/community.html> to view the Lower Rio Grande Valley regional project priorities.

Eligible applicants are non-entitlement general purpose units of local government including cities and counties that are not participating or designated as eligible to participate in the entitlement portion of the federal Community Development Block Grant program (CDBG). Non-entitlement cities that are not participating in urban county programs through existing participation agreements are eligible applicants (unless the city's population is counted towards the urban county CDBG allocation). Staff have disseminated information on CDBG funding available to area communities and stakeholders and have been available for any questions related to the funding opportunities.

- Solid Waste Management Program

A virtual Solid Waste Advisory Committee (SWAC) meeting will be held on February 28, 2023, at 10:00 AM. The GoToMeeting link and public comment form can be found on LRGVDC's calendar page: <https://www.lrgvdc.org/>. Texas Commission on Environmental Quality (TCEQ) hosted a Scrap Tire Webinar on February 10, 2023, which included presentations covering helpful scrap tire management guidance documents, scrap tire projects funded through the Regional Solid Waste Management Grants Program, Local Enforcement Options for Scrap Tire Management, and an update on a Texas State University study, "Scrap Tires in the Lower Rio Grande Valley: Searching for Alternatives to Landfilling". Texas State University was able to highlight the results of this study in this webinar.

Staff continue to provide technical assistance, outreach, and monitoring for all Solid Waste Projects. Information about the Solid Waste Program is available at [www.lrgvdc.org/solidwaste.html](http://www.lrgvdc.org/solidwaste.html).

- Water Quality Program

Staff continues to educate the public on water quality issues with the theme of "Drinking Water" for the month of February. You can find educational social media postings on the LRGVDC Facebook page. Give a thumbs up or leave a comment! Outreach efforts for this program also include staff attending in-person events. This allows for great C&ED program promotion to the community. Informational reading material and promotional items on water quality are distributed at these events.

Staff continue to support projects that provide water quality monitoring through four (4) stations placed in targeted locations. The monitoring stations provide real time data on nutrients including dissolved oxygen, conductivity/temperature, nitrate, and ammonium in the main drainage outlets to the coastal waters. Updates on this project occur on a regular basis, and progress on data collection and other aspects of this project are good.

Staff also continue to regularly communicate with representatives from the TCEQ as well as other entities involved in water quality initiatives to strengthen partnerships and generate further activities related to water quality and to highlight the importance of it to the region.

Visit our Water Resource webpage at: <https://www.lrgvdc.org/water.html>

- Regional Water Resource Advisory Committee (RWRAC)

The LRGVDC is soliciting nominations for a RWRAC committee member to serve in the **Willacy County category**. Nominees will be selected based upon their qualifications, experience, and interest. The purpose of the advisory committee is to educate, promote, foster, and coordinate community and regional planning efforts on the environmental, economic, and other social impacts of existing, new, or proposed regulations, policies, and control regarding water resources management. If you have any questions about the nominations process or

committee, please contact Rick Carrera, [rcarrera@lrgvdc.org](mailto:rcarrera@lrgvdc.org). Nomination forms need to be emailed to Rick Carrera by March 1, 2023.

A Regional Water Resource Advisory Committee (RWRAC) meeting is scheduled for March 7, 2023, at 2:00 p.m.

Staff continue to support, provide technical assistance, outreach, and monitor some water projects. Information about water resource is available at <https://www.lrgvdc.org/water.html>

- Rio Grande Regional Water Planning Group (Region M)  
The next Region M meeting is scheduled for Wednesday, March 1, 2023, at 9:30 am. These meetings are currently being conducted in person and online. For more information on Region M, please visit website: <http://riograndewaterplan.org>

#### Rio Grande Valley Emergency Communication District Status Report

- GIS Division

The GIS team continues to maintain the GeoMSAG, they have achieved 100% geocode matching on the GeoMSAG. This enables calls in Hidalgo and Willacy Counties to be routed to the relevant Public Safety Answering Point (PSAP) using our GIS data as the router. Our GIS Data Hub is acting as our website and can be found by going to [www.rgv911.org](http://www.rgv911.org). We have uploaded several informational maps that can be readily downloaded for use by other public entities. Including an address lookup map. GIS team member Jacob has created a custom composite geocoder that can be used to search through our 9-1-1 GIS data.

- Community Engagement Division

It is the beginning of a new year, and we are eager to start our educational events. The staff takes pride in all the events they attend, and our main goal is to inform and educate the public about the importance of 911 and the significant benefits 911 offers. For the month of January, we participated in the following events with various organizations throughout Hidalgo and Willacy Counties.

Hidalgo County Precinct 4 hosted its Inaugural Rio Grande Valley Police K9 Competition on January 4, 2023. During the event, staff informed the community of the benefits of registering their 9-1-1 address with the RGV9-1-1 District.

The Willacy County DA's office held its 4th Annual Human Trafficking Awareness Day Event on January 11, 2023. We educated the public on the importance of knowing how to use 9-1-1 and how to text 9-1-1 in case of an emergency.

Region One - Education Service Center hosted a Transition Fair on January 25, 2023, for students who are blind, deafblind, and visually impaired. This event was organized to help with the next chapter of their lives as they transition from high school to college. Staff talked to parents and teachers about choosing a phone with an activated sound application or braille for calling 9-1-1. These options can help the student in case of an emergency.

The McAllen Career Technical Education Department hosted a career expo for middle school students on January 31, 2023. This event provided a great

opportunity for students to visualize a future path into various types of career fields. Our Information Technology team shared knowledge with students about what technology they provide for the Public Safety Answering Points (PSAP). They used a portable Viper 7 network rack to teach students about the operations of this system.

- 9-1-1 | Information Technology

Our 9-1-1 | Information Technology Team is looking forward to the upcoming months of 2023. Their focus has been on Cybersecurity research which entails applying hardware solutions with a set of new network firewall installations to safeguard the perimeter of our 9-1-1 network. This project when completed will actively mitigate outside and internal threats, increasing the resiliency of our infrastructure using cloud monitoring, active virus scanning, and various Cyber-attack mitigation tools, processes, and industry-standard strategies.

In line with quarterly Public Safety Answering Point (PSAP) audit processes, the implementation of proactive maintenance procedures will ensure that equipment is meticulously maintained in all the managed facilities; that include the backroom network devices to the front room equipment that is utilized by Telecommunicators. Also included with the maintenance are inventory and asset tasks, wiring management, basic housekeeping, user account maintenance, and software security checks on every device that could pose a potential cybersecurity threat.

As a team, the main goal through diligent efforts is to provide the highest level of resiliency in all Public Safety Answering Point (PSAP) operations to provide lifesaving call delivery which is the strategic mission of the 9-1-1 | Information Technology Team to better serve the community.
