Subject: RE: Question On Bid#2023-05

Good Afternoon,

Thank you for your interest in the RFP – Lawn and Landscape Services No. 2023-05. As per the RFP in section 2.3.1 (which will be amended to correct the month to state ...February through October... Responses to your inquiry are in red text below following the question.

Good Morning,

Have a question in regards to the locations, How many services do you need monthly or weekly or what are the service times that are needed for each location?

2.3.1 TURF MOWING:

- Lawns shall be mowed at the appropriate height to keep a neat appearance and to the satisfaction of the owner. Contractor will maintain an acceptable turf height through bi-weekly service from the months of February through October. Services can be increased if warranted, and Contractor is expected to respond accordingly to seasons of heavy growth due to above average rainfall or other conditions that would cause above average growth of lawns and other items stated in this RFP. All services are expected to be conducted at the beginning of the week (preferably Mondays & Tuesdays). Contractor will reduce service to once monthly during the months of November through January unless a service is warranted by conditions or a request from the owner. Considering the topography, the Contractor is required to use the proper mowing equipment to provide a high-quality cut and minimize the occurrence of unnecessary scalping due to uneven terrain. Locations must be completed on the same day once they have been started.

Thank you,

Lower Rio Grande Valley Development Council

Sincerely:
Owner: Alexis Garza
